## EDUCATION

- **Indian Institute of Information Technology** Lucknow, Uttar Pradesh, India  
*Bachelor of Technology - Computer Science and Artificial Intelligence, GPA: 8.6* August 2023 - June 2027

## EXPERIENCE

- **Walmart Global Tech** Onsite  
*Software Developer Intern* May 2026 - July 2026
  - **Data Migration Pipeline:** Built a pipeline to transfer and validate large datasets across internal systems, guaranteeing data integrity throughout the migration.
  - **AI Observability Agents & Cost:** Developed AI agent skills (via MCP) that autonomously pull and correlate logs and metrics from OpenObserve, Grafana, and Prometheus for faster root-cause debugging, and drove cloud cost-optimization across services.
- **Nugget by Zomato** Onsite  
*Engineering Intern* Dec 2025 - Feb 2026
  - **Voice Ticketing & Multi-Tenant:** Built end-to-end LLM ticketing logic for voice bots and multi-tenant voice solutions for clients such as Tata1mg and VoloHealth to automate issue capture and resolution.
  - **Telephony Microservices:** Developed Go microservices integrating Ozonetel dialers and SIP telephony for inbound/outbound calls, plus a backend surfacing conversation context during real-time human-agent handovers.
- **Eternal (Zomato)** Onsite  
*Engineering Intern* June 2025 - Sept 2025
  - **Production Voice Bots:** Designed and deployed end-to-end voice bots covering NLU, TTS, STT, and VAD, integrating Gemini, Deepgram, and OpenAI/Groq into client-facing platforms.
  - **Orchestration & DevOps:** Built a modular voice-orchestration framework adopted by Zomato Ads and set up GitOps CI/CD (GitHub Actions, ArgoCD, IaC) on AWS EKS/ECS.
- **UBIQCURE : Healthcare Startup** Remote  
*Software Engineering Intern (Tech Lead)* Aug 2024 - Nov 2024
  - **Full-Stack Development:** Shipped four web portals (Landing, User, Health-Management, School-Management) using React, Node.js/Express, and MongoDB.
  - **Cloud & Team Lead:** Optimized Azure CI/CD pipelines to accelerate deployments and led a 6+ member cross-functional team via GitHub, Jira, and Agile.

## OPEN SOURCE

- **stdlib-js : Standard Library for JavaScript** Remote  
*Maintainer* May 2024 - Present
  - **Contributions:** Authored 145+ merged PRs across BLAS, LAPACK, and statistics packages.
  - **Impact:** Contributed C-level BLAS extensions and WebAssembly implementations to improve numerical-computing performance.

## PROJECTS

- **KubeStore - Kubernetes Store Provisioning Platform** GitHub  
*Tech Stack: Go, React, Kubernetes (Kind/k3s), Helm, Docker, PostgreSQL, BoltDB* 2026
  - Engineered a Kubernetes-native platform in Go to dynamically deploy and orchestrate fully-functional MedusaJS and WooCommerce e-commerce stores.
  - Managed lifecycles with Helm (install/upgrade/rollback), namespace isolation, and persistent volumes; added RBAC, network policies, rate limiting, and a React observability dashboard.
- **Vulnpilot - AI-Powered Security Automation** GitHub  
*Tech Stack: React, TypeScript, Node.js, Django, PostgreSQL, MongoDB, Docker, Groq SDK* 2026
  - Architected a security-automation platform integrating Nmap, Nikto, and SQLMap for multi-layer vulnerability detection (OWASP Top 10, SANS 25).
  - Built an AI engine (Groq SDK) analyzing source code for actionable insights inside a no-code visual workflow builder; deployed as containerized microservices with GitHub repo scanning.
- **ScrapBot - Scraper & RAG Chatbot** GitHub  
*Tech Stack: React, Python, FastAPI, WebSocket, BeautifulSoup, Docker, LangChain* 2025
  - Built a full-stack platform that scrapes data, builds a semantic knowledge base, and answers natural-language queries via Retrieval-Augmented Generation (RAG).
  - Implemented a FastAPI + WebSocket backend with a React frontend for real-time chat and session management; containerized and deployed on Render.

ACHIEVEMENTS

---

- Overall Winner - GenTech Thales Hackathon; Global Top 11 - Walmart Sparkathon.
- 3rd - Finance Hackathon and 2nd - ML Hackathon (Techkriti, IIT Kanpur); 3rd - SuperMove dAppthon.
- **Codeforces Specialist** (peak 1534) and **CodeChef 4-Star** (peak 1813); global rank 386 in a Div-2 contest.

TECHNICAL SKILLS

---

- **Languages:** Go, Python, TypeScript, JavaScript, Java, C++, C, SQL, Bash
- **Backend & Frameworks:** Node.js, Express, Spring Boot, Django, FastAPI, Bun, Hono, GraphQL, REST
- **Frontend:** React, Next.js, TailwindCSS, Redux
- **DevOps & Cloud:** Docker, Kubernetes, Helm, CI/CD, GitHub Actions, ArgoCD, AWS, Azure, Linux
- **Databases:** PostgreSQL, MySQL, MongoDB, Redis, SQLite, Drizzle, Prisma
- **AI / ML:** LLM Integration, RAG, LangChain, Groq/OpenAI/Gemini APIs, Neural Networks

ROLES AND RESPONSIBILITIES

---

- |                                                                                                                                                             |                       |
|-------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------|
| ● <b>Coordinator of Web Wing, AXIOS - Technical Society of IIITL</b><br>● <i>Coordinated 10+ technical development events for 240+ students.</i>            | August 2024 - Present |
| ● <b>Senior Member of FOSS Wing, AXIOS - Technical Society of IIITL</b><br>● <i>Led open-source workshops for 240+ students and promoted Hacktoberfest.</i> | August 2024 - Present |
